ABOUT ME

I am a young Front-End Developer passionate about programming.

Thanks to the solid training I received at EPICODE through a 500+ hour front-end programming bootcamp, I have gained proficiency in HTML, CSS, SASS, JavaScript, React, TypeScript, and much more.
All of this, combined with my past experiences, has helped shape my creative and organizational skills.

EDUCATION

EPICODE
Front-End Developer
2023-2024

ITNS F.Caracciolo
Maritime Transport Expert Diploma
2006-2011

Multi-Instrumentalist Musician:
Bass, Double Bass, Guitar & Ukulele

Assistant Basketball Coach:
At an amateur level, for kids between 8yo and 18yo

PROJECTS

ProMusic

A multi-page React web app created for the Cultural and Musical Association Promusic. Fully developed in React, with Bootstrap for styling, Redux for state management, and EmailJS for handling emails. https://promusic.vercel.app/

Bardoo

A music event management web app fully developed in React, using Bootstrap for styling and layout, and Redux for state management. It incorporates JSON Server for simulating APIs locally while adhering to RESTful architecture principles.

Netflics

A Netflix clone developed with React.js to enhance styling logic in the process of creating a web page focused on user interface while maintaining high accessibility to ensure a user experience that matches its design.

Andrea Pugliese - (In Progress...)

A multi-page multilingual web app developed for a renowned chef, designed to showcase his dishes, events, and cooking classes. The interface was entirely built using React, with Bootstrap integrated for styling and Redux for state management. The platform supports multiple languages, ensuring a seamless experience for users from different regions.

WORK EXPERIENCE

Da Mariano | Procida
2019-2022

- **Team Management and Customer Service:** Developed skills in managing and motivating staff, ensuring high-quality customer service and effective communication within the team.
- **Organization and Planning:** Demonstrated ability to organize and optimize workspaces and manage resources, contributing to an efficient and well-structured work environment.

La Pergola | Procida
2012-2014
2016-2018

- **Leadership and Coordination:** Excelled in leading and coordinating a large team, successfully managing large-scale events and ensuring smooth operational flow.
- **Supervision and Collaboration:** Enhanced skills in supervision and interdepartmental collaboration, ensuring optimal preparation and presentation of dishes through close cooperation with the First Chef.

WildWood Restaurants | Bristol
2015

- **Time Management and Problem Solving:** Refined time management and problem-solving abilities by overseeing operations and maintaining high standards under pressure.
- **Resource Management and Compliance:** Developed skills in managing resources and ensuring adherence to regulations, demonstrating attention to detail and responsibility.
